ARTIST STORY

BIO

HÄZIL is a New Orleans native from the downtown 7th Ward whose connection to music began early. Her original EPK says she discovered her gift for singing around age four after hearing Karyn White's *Superwoman* on the radio.

From elementary school through high school, she continued developing her vocal technique. At Milestone Academy she became active in the arts and dance and served as captain of the dance team, helping shape her as a complete performer.

Her early live experience included a charitable performance at the Melo G Brand Foundation Annual Christmas Ball for underserved youth and teens. The EPK also emphasizes her songwriting, cross-genre adaptability and musical storytelling.

“Music should leave the listener with something to feel.”

PRESS POSITIONING

WE UP

Singer/songwriter HÄZIL released **We Up** in 2018 through Hazeleyes Ent / Fam Factor. The original press release positioned the single as a milestone in her development and highlighted her boldly diverse vocals and songwriting skills.

The catalog reflects a performer comfortable moving between personal songwriting, pop and hip-hop influences while maintaining a distinct vocal identity.
